RHODODENDRONS

Retail Price List

November 1, 1960

Vigorous young cutting grown plants, in the smaller sizes, offer maximum value for your Rhododendron dollar. As this list is being prepared we have a good supply of budded plants but they are moving out rapidly, and so the supply is not indicated here. Most of the budded plants are rather large, 15-18 inches and up. If you are interested in budded plants let us know the varieties and we will be glad to inform you as to sizes available at the time. Prices of most varieties, with and without buds, are indicated following the variety list.

Although this list is for late fall, winter and spring shipping, our soil and climatic conditions permit us to dig and ship practically the year round so order for delivery when your conditions are right.

All plants are shipped with a good ball of soil so may be moved quite late in the spring if given a little shade and kept well watered. However the earlier they are planted the better growth they will make.

Indicate sizes desired by letters; May Day d, would mean a 12 to 15 inch plant without flower buds, May Day D, same size, with flower buds. The letters following each variety indicate the sizes available when this list was prepared.

"y" plants, available in many varieties, are one year old from cuttings and were set in the lath house last June. These small plants provide an economical way to build up a collection.

There is room for so little descriptive matter in a list of this type we have gone all the way and left out all but the variety name. For information about these and other varieties see the American Rhododendron Society's "Rhododendrons 1956" or the new A.R.S. book now being printed "Rhododendrons for Your Garden", or our own, just off the press, "Getting Started With Rhododendrons and Azaleas", Doubleday and Company, \$4.95. Of course we will be glad to answer questions or to suggest varieties of specific colors or for specific uses. We are actually growing many varieties in addition to the above, over 300 altogether. If you are looking for any special varieties or species we would be glad to hear from you. We may have them.

### Our Location

We are on the Sand Ridge Road, about 4 miles northeast of Long Beach, on a narrow peninsula between the Pacific Ocean and Willapa Bay. This is in the extreme southwest corner of the state of Washington. We would be very glad to have you stop in and examine our plants any time you happen to be in this vicinity.

### Terms

Cash with order, F. O. B. Long Beach, Washington. Plants are guaranteed true to name but we will not be liable for more than the purchase price. Plants become your property upon delivery, in good condition, to the transportation company.

### Shipment

Plants will be shipped by Express, or Motor Freight, collect unless otherwise specified. Orders of one or two small plants may be shipped parcel post, if you so desire; enclose ample estimated postage, and we will return any excess.
